

To set up remote control and additional buttons at screen for INFILL G4

Go to CF – SETTINGS - HOTKEYS

Push SETUP

Find the control you want to specify, i.e. Increase volume.

Push SET

A dialog box appears

Push the Red record bottom

Push the key on the remote control for which you want to add the function.

For this example you can push the increase volume on the INFILL G4 or the remote control

This is to be done by each function you want to control by remote control for control in CF.
